EXAMINER'S AMENDMENT

1. Receipt is acknowledged of papers filed under 35 U.S.C. 119 (a)-(d) based on an application filed in Japan on 10/17/2002. Applicant has not complied with the requirements of 37 CFR 1.63(c), since the oath, declaration or application data sheet does not acknowledge the filing of any foreign application. A new oath, declaration or application data sheet is required in the body of which the present application should be identified by application number and filing date.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: paragraphs in the abstract have been combined into a single one.

3. The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose an organic EL display device which displays by individually controlling an amount of current of organic EL elements according to an input image signal, comprising a lookup table for storing gamma compensation data for compensating an image signal; and storage means for storing an equation for performing gamma compensation of the input image signal; wherein the table data generated by table data generation means is stored in the lookup table by an initialization operation to perform gamma compensation of the input image signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Vu whose telephone number is (571) 272-1831. The examiner can normally be reached on M-F 8am-430pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
